

Breath Testing Specialist

Class Schedule

2012

Breath Testing Specialists (BTS) are **Operators** who have completed an advanced breath alcohol instrumentation training class and are ISPFS-certified to perform instrument maintenance, and provide both basic and recertification training for Operators. BTS certification training is good for 26 months. Certification covers the Intoxilyzer series of instruments (the 5000 and 5000EN), the Alco-Sensor III series, as well as the Lifeloc FC20 series.

BTS Classes are taught throughout the year by ISPFS approved Forensic Scientists in two locations covering Northern Idaho (Coeur d'Alene), Central Idaho and Southern Idaho (Meridian). Students may attend any location/training class which accommodates their schedules. The breath testing classes will be taught at the following times and locations for the calendar year 2012 (see schedule below). Subsequent years will have classes taught at the approximate same times within the year.

The class has been streamlined into a single day and all instruments will be taught. You will only be required to pass the testing for the instruments that you are being certified for in the class.

All attendees are encouraged to review the operator presentation and instructional materials prior to coming to BTS class as they will be responsible for knowledge of the operator materials as part of their BTS certification.

To register for classes, please call the appropriate laboratory:

D3 Meridian Lab: 208-884-7170 Contact: Rachel Cutler

D1 Coeur d'Alene Lab: 208-209-8700 Contact: Jeremy Johnston

Please indicate if you are currently certified as a BTS.

Check with the appropriate lab for class start times and classroom locations. Classes will start at 8:00 unless otherwise specified.
