Course Highlights

Body Worn Cameras: Directions for LE is designed to assist public safety agencies in the development and implementation of a successful BWC program. Topics covered include research, how to manage change, an overview of current BWC systems, legal issues, IT concerns, and policy recommendations.

Please note that Police Technical uses vendor provided data when discussing technical details of any system. Police Technical is neither affiliated with nor provides recommendations for any specific BWC system in this course.

Who Should Attend

This class is designed for any law enforcement professional who is either tasked with developing a BWC program or who wishes to submit a BWC proposal on their own initiative.

Material Requirements

No special materials are required.

Agenda

Day One

1. Justification for the program: studies on Body Worn Camera (BWC) use

2. The "Best Buy" effect
3. Consequences of technology
4. Technology implementation
5. Policy changes
6. Training
7. Selling it to the boss
8. Practical exercise in developing a BWC proposal

Instructor: William Randall Miller

Randy Miller is a retired sergeant with the Orlando Police Department, having served 20 years as a sworn law enforcement officer. Throughout his career he submitted over a dozen policy and project proposals which included everything from a grant purchase for extra patrol radar systems to the implementation of corporal program. When not instructing for Police Technical Randy lives in the Orlando, Florida area and serves in Key West, Florida as an intelligence officer for the Navy Reserve. Randy is married to his wife Kim for over 20 years and has two children
