PRESENTS

Room/Building Clearing (Single Man, Two Man, Team Clears)

DATE:

[December 8-9th, 2014](#)

Description:

We are proud to be able to host this exceptional training course!

Course highlights include:

- Current best practices, tactics, and techniques for room/building clearing: solo, with an assist, and in small teams.
- The “Do’s and Don’ts” of Room Clearing
- The course is a combination of lecture, dry runs, and force on force training scenarios
- FMT’s entire 25,000sf reality based training center and training vehicles will be dedicated to the course.
- The course is being taught by Deliberate Dynamics (DDI) Military Special Operations instructors.
- Officers do not search empty homes, buildings, schools, or other spaces on a regular basis. They search occupied spaces with “red zones”, hiding places, trip hazards, barricades, furniture, etc. Room clearing is more than processing open and closed doors. FMT’s facility and room clearing course will train the participants in an environment that they encounter during their calls for service and critical incidents.
- Force on Force scenarios for reinforcement of the training concepts.
