PRESENTS

First Line Supervision: Mastering Leadership Skills *Public Agency Training Council*

DATE:

[August 27-29, 2013](#)

Description:

Back by Popular Demand!

All of us are familiar with the term, Minimum Standards. We use minimum standards for everything from firearms to understanding constitutional law. However, many of us use minimum standards as a destination while we should be using it as a starting line. How do we change this mentality? **LEADERSHIP**. This course is all about providing you with the tools you need to become the best leader you can be. Doing that comes with the understanding that great leadership is the result of a lifetime of learning and experience combined with a commitment to help others do the same. If you are looking to improve performance, relationships, and the morale of your department, this class is for you!

At the conclusion of the course the participant will:

- ✓ Understand the character of a true leader
- ✓ Understand the Paradigm Effect, Paradigm Paralysis, and its impact on your ability to effectively lead
- ✓ Understand the importance of having, celebrating and sustaining a belief system
- ✓ Understand the difference between management and leadership and how they impact different areas
- ✓ Understand how to apply the Leadership Test ©
- ✓ Understand how to use and apply the DISC ® profile and how it applies to supervision
- ✓ Understand the myth surrounding the "Perfect Leader"
