Course Highlights

Personnel will be better able to view, analyze and present cell phone data (and related data sets) generated from current investigations. Through the use of specific studies and prepared sample sets of data (generated from actual cases), students learn how to analyze and present data found in typical investigations. Special data sets (non-cell phone) are also presented as potential sources for evidence. By the end of the course, students will be confident in their ability to manage and present digital data sets (cell and others) as evidence in court and in special hearings.

Who Should Attend

This class is designed for any investigator. Experience or training in cell phone investigations is not required. Previous students have included investigators, detectives, analysts, support staff, and supervisors .

Material Requirements

Students should bring a laptop with Microsoft Excel, Word and PowerPoint (version 2003 or higher). Additional materials (data sets) will be provided to students upon arrival.

Agenda

Day One

1. You've got the data now what?
2. If/ Then Statements - Looking at the Data, Outside Call Lists, Who is calling who?, Distinct Call Lists For Use in V-Lookups
3. V-Lookups - Getting the facts from the Data, Linking Numbers to People, Tower Locations, Human Readable, Intermediate Code
4. Pivot Tables - Finding the important clues in the Data, Call Frequency, Tower Frequency, Sum of Calls, Sum of Minutes

Day Two

1. Evidence Continuity - Making the Data Make Sense (to everybody)
2. Color Coding - Adding SMS, Combining Data
3. Mapping Call Data - Showing the relationship between the data, reality and location, Basic Google Earth KML Creation, KML Creator, Google Docs
4. Gephi - Data Analysis, powerful, simple, and free, Importing Data, Manipulating Data, Combining Data
5. PowerPoint - Presenting the results in a format everyone can see and believe, Presenting Cell Data in Court and Hearing, Screen Captures, Splash Screen, Linking to Outside Documents

Instructor: Ashley Englefield

Ashley Englefield is a 10 year veteran of the Sacramento Police Department in Northern California. Prior to becoming a police officer Mr. Englefield was a United States Marine and obtained a Bachelors degree in Information Systems from California State University Sacramento. After his time in the patrol division, Mr. Englefield joined the Detective division and worked as an investigator in the narcotics, gangs, and eventually the homicide division. During his time as a homicide detective Mr. Englefield gained expertise in conducting investigations into cell phones, cell phone records, and many aspects of internet related technologies. Mr. Englefield is currently a student at the University of Cambridge (UK) completing a Masters degree in Criminology. Mr. Englefield resides in California with his wife and daughter.
